

## **body misfiled (ongoing)**

**Specimen ID:** [redacted]

**Date of Intake:** ongoing

**Classification:** unstable, repeating, mildly sarcastic

### **chief complaint**

the body reports:

mouth filled with static,  
spine vibrating at 60hz,  
pronouns flickering like faulty bulbs.

### **chart repeats:**

symptoms resist containment,  
containment resists body,  
body resists paperwork.

***side note:*** patient attempted small talk with vending machine. unsuccessful.

### **history**

childhood: hid under stairs where ferns swallowed sound.

adolescence: received note in class, single word: DYKE.

adulthood: wrist bones now carry archive of vanished names.

### **annotation (automated):**

history incomplete.  
please contact technical support.  
estimated wait time: 47 years.

### **field observations**

- teeth planted in soil.
- crow wings sound alarms.
- moss refuses taxonomy.

### **observer remark:**

specimen more ecological than human,  
human more refusal than form,  
form collapsing at borders.

***field note addendum:*** crow interrupted observation by defecating on intake sheet. data preserved.

### **errata**

record #0001 — gender marker: struck through.

record #0047 — entry terminated mid-syllable.  
record #0193 — annotation: “alive despite misfiling.”

***margin scribble:***

side effects may include: moth infestations, misplaced pronouns, spontaneous lyricism.  
ask your doctor if glitch is right for you.

**transcript (partial)**

NURSE: state your gender.  
BODY: static. static.  
CROW: feather. feather.  
NURSE: repeat?  
BODY: vowels breaking.  
CROW: not translation. echo.  
NURSE: will you comply?  
BODY: error code: LOL-404.  
CROW: compliance not found.

**redaction log**

[REDACTED]

diagnosis withdrawn.

[REDACTED]

treatment deferred.

[REDACTED]

subject removed itself for lunch break.

**witness**

body signs: illegible.  
witness signs: crow feather pressed into page.  
provider signs: unreadable scrawl resembling  
  \\_ (ヾ) \\_ /

**closing refrain:**

form collapses.  
archive cannot hold.  
patient survives anyway.  
ongoing, ongoing, ongoing.
